PROJECTS AND ACCOMPLISHMENTS

Chip Based Attribution System | Role: Project/Scrum Lead | Company: WDTS

Casino Chip Attribution System ("CCAS") is a Perfect Pay system module that enables Perfect Pay for mass gaming floors by specifically addressing back-betting, and un-carded player betting. CCAS attributes gaming chips to players and key locations within the casino, e.g., betting spots, chip trays, cages, etc. CCAS tracks all play and chip transactions for known and anonymous players - from buy-in to cash-out.

- Chip attribution
- Back betting support
- Independent Bets
- Under and Overpay messages
- RFID Chip Tray
- Player Management on DD
- Player Session Types – Rated/Anonymous
- Table Auto Roll

ICIS | Role: Scrum Master | Company: Nagarro

ICIS price reports provide independent, objective and trusted intelligence for the global petrochemical, energy and fertilizer markets. Price reports cover more than 180 commodities, and focus on pricing trends in all major trading regions. ICIS provides the information need to make better-informed business decisions.

- Spot and contract assessments
- Market commentary on trends and business developments
- Transactions reported and confirmed
- Plant and production news

Erste | Role: Scrum Master | Company: Nagarro
